

# Generate high-quality radiology reports quickly and efficiently.

Reinventing radiology reporting for a changing world.

## Challenge

In today's demanding healthcare environment, how can providers remain competitive, meet growing regulatory requirements, comply with quality performance measures, support population health management, and transition to new value-based models of care?

## Solution

Nuance® PowerScribe® 360 Reporting, the industry's most trusted and widely used real-time radiology reporting solution, enables quick, efficient generation of high-quality reports to maximize productivity, optimize billing and reimbursements, increase referring physician satisfaction and improve quality of patient care. Proven speech recognition technology customized for the radiologist improves the overall speech experience while limiting upgrade disruption. Structured yet flexible and personalized dynamic reporting features supports rapid turnaround and ensures reports are accurate, consistent and actionable.

PowerScribe 360 Reporting enables continuous quality improvement by streamlining report generation and communicating important clinical information throughout the healthcare enterprise.

## Custom data capture and extraction

Built-in access to configurable data entry tools enables information to be captured when it is needed most, streamlining workflows and improving accuracy.

## Smart Auto Text

A new generation in AutoText technologies enables referenced fields to drive intra-report content creation, accelerating time to report completion while ensuring thorough, compliant, and accurate report content.

## Multimedia reports

Available in the core solution, enhance communication of radiology findings by correlating images with text reports and facilitate better understanding of disease between referrers and patients.\*

## PowerScribe 360 Portfolio

### Peer review

Automated peer review saves time, improves efficiency and drives quality improvements by eliminating cumbersome manual compliance processes.

### Mobile access

With PowerScribe 360, mobile devices can be used to search radiology-specific content to assist with diagnoses and securely edit, sign and distribute reports.

**#1 KLAS Category Leader for Speech Recognition— Front End Imaging in 2017**

2017 Best in KLAS: Software & Services Report

## Key benefits

- Structured data facilitates quality measure reporting, participation in registries and data exchange with EHRs to reduce error-prone and time-consuming manual data entry.
- Flexible data integration capabilities allow easy import of data directly from modalities to significantly improve productivity, reduce potential for error and simplify regulatory reporting.
- New overread workflow option allows greater flexibility to physicians when requesting additional input on a specific report by routing it to the appropriate specialist or section.
- Rapid access to relevant outside images through Nuance PowerShare Network expedites care decisions and minimizes unnecessary repeat exams.
- Cooperative development with leading EHR/EMR and RIS/PACS vendors ensures solutions work within existing infrastructures to maximize IT investments.

“On our first day with PowerScribe 360, we were further along than after six months with our previous vendor.”

Jeff Blomquist  
CIO, Radiology Associates PC

#### Quality guidance

Quick and easy access to the most current evidence-based guidelines at the point of documentation enables consistent follow-up recommendations to reduce departmental variability, risks and improve patient outcomes, while incorporation of Nuance’s unparalleled Clinical Language Understanding engine provides real-time feedback on errors, inconsistencies and ensures critical findings are identified and appropriately communicated.

#### Advanced data integration with ModLink™

Achieve time savings with automatic import of measurement, dose and other relevant data from the modality. Facilitate greater report accuracy and consistency while eliminating the need to re-dictate/re-document for physicians and other healthcare professionals, leveraging existing workflows.

#### Registry reporting

PowerShare™ Radiology Reporting leverages the structured, flexible reporting platform of PowerScribe 360 to automate data collection and submission to the ACR Registry to simplify data submission to targeted registries like the ACR’s PQRS registry. Radiology Reporting maintains productivity and existing workflows, and ensures compliance to avoid penalties.

#### Workflow orchestration

Share patient information, view images, and interpret cases across disparate locations and systems with built-in, multi-site radiology workflow and SLA management tools. Designed to address the needs of healthcare networks with multiple RIS, PACS, and Advanced Visualization applications, Workflow Orchestrator for PowerScribe 360 seamlessly integrates these elements into a unified worklist for radiologists.

Nuance provides a more natural and insightful approach to clinical documentation, freeing clinicians to spend more time caring for their patients. Nuance healthcare solutions capture and communicate more than 300 million patient stories each year helping more than 500,000 clinicians in 10,000 healthcare organizations globally. Nuance’s award-winning clinical speech recognition, medical transcription, CDI, coding, quality and diagnostic imaging solutions provide a more complete and accurate view of patient care, which drives meaningful clinical and financial outcomes.
