NUANCE

# To make your job easier, we work harder on partnerships

Creating value for healthcare organizations through AI-powered solutions optimized for Cerner.

Given all the platforms and devices, and the unique demands of the people who use them, creating a seamless experience is not easy. That's why we partner with Cerner to make it easier for clinicians to document everything without ever taking their focus off what matters most—caring for their patients.

**Deeply embedded across the continuum of care**

Deep integrations between Nuance and Cerner solutions allow physicians to engage more conversationally with technology to practice medicine and create effective clinical documentation—while maximizing the value healthcare organizations receive from their EHR.

— Cerner DynDoc edit controls, single sign-on, and virtualization with Dragon Medical One

— Dragon Medical embedded in Cerner PowerChart Touch and Instanote

— In-workflow documentation guidance through Dragon Medical Advisor

— PowerScribe desktop integration and certification with Cerner Radiology eases real-time radiology reporting

— PowerShare Image Sharing integrated with Cerner MPages supports medical image sharing, viewing, and management

— CDE One electronic clarifications for Cerner Millennium and CommunityWorks

**Joint innovation and strategic development**

Technical strategy is the backbone of our partnership. That's why we engage in joint development and innovation projects—and here are just a few of the areas where we work alongside Cerner to deliver a seamless user experience:

— Nuance and Cerner access to shared test environments, joint support calls, and regular R&D checkpoints

— Advanced radiology reporting and image sharing

## 4 out of 5 facilities that use Cerner use Nuance

**WHY CERNER CLIENTS CHOOSE NUANCE**

— AI-powered solutions—including speech recognition and CAPD—for Cerner

— Clinical approach and content backed by 25 years of expertise

— Mobile effectiveness

— Improved costs, better outcomes, and better overall experience

**Data sheet**
Nuance AI-powered solutions
optimized for Cerner

**NUANCE**

**Delivering unmatched outcomes for more than 1,000 Cerner clients and counting—here are just a few examples:**

— **UHS** achieved 90% voluntary speech recognition adoption and 80% CAPD physician acceptance, resulting in 36% improvement in capture of extreme SOI, 24% improvement in ROM, and 12% increase in CMI.

— **Mosiac Life Care** achieved over 99.8% speech recognition accuracy and boosted same day documentation rates to 75%.

— **St. Dominic Health Services** shifted SOI and ROM from the extreme level 3 to 4 by 46% and 54%, respectively.

— **Augusta University Health** shifted SOI and ROM from the extreme level 3 to 4 by 53% and 44%, respectively.

— **LifeBridge Health** reduced transcription use by 90%.

"Going from one EHR to another is a huge learning curve. We knew speech recognition would help and we wanted to choose a vendor that worked well with Cerner. Implementing Dragon Medical One was one of the smoothest parts of the enterprise-wide shift to a new EHR. It improved the providers' documentation process and gave them a foundation of confidence that helped them work through the transition to Cerner."
